Severe Weather Outlook Thursday, April 01, 2021

Hazardous Weather

Warm, dry, and breezy conditions will lead to elevated fire weather across the western and central sections of the Texas and Oklahoma Panhandles this afternoon. Please practice fire safety.

Elevated fire weather conditions are expected in the western and central combined Panhandles due to lower RH values and stronger wind speeds.

Hazardous Weather

Milder temperatures will return today with highs mostly in the upper 60s. Southerly winds at times will reach 15 to 25 mph with **Elevated Fire Danger** over much of the area this afternoon and early this evening.

Fire Weather Outlook
Oklahoma, north Texas area - next 7 days

Weather Forecast Office
Norman, OK
Issued Apr 1, 2021 3:34 AM CDT
